

Register for Electrosurgery Courses at BC Group

BC Group is pleased to announce quarterly ESU courses at our facility, located in St. Charles, MO. The first of this on-going series will be held July 16-20. During the five-day curriculum, students will have the chance to obtain invaluable information on one or more Valleylab generators. The instructor, Dale Munson, is the former, principal instructor at Medtronic, but now owner of Biomed Support Services.

BC Biomedical's DFA2 Technology in the ESU2400H Now Patented

BC Biomedical's ESU-2400H Electrosurgical Unit Analyzer's DFA2 Technology is now patented under US Patent No. 9,883,903. The newly patented technology allows the ESU-2400H to aggressively digitize the complex RF waveforms produced by electrosurgical generators. Each data point is analyzed to provide highly accurate measurement results.
